

InterMedCorp

Project Management, Billing, and Consulting

Service Offerings

Who we are....

Building on our Healthcare experience and network of professionals our mission is to provide cost effective medical services in the area of Practice Management, Practice Software, Client Education and Special Projects involving clinical and billing specialists. InterMedCorp's staff includes coding and billing professionals, professional RN's/LPN's and Physicians from a wide range of specialties.

InterMedCorps commitment to the Healthcare Industry has allowed us to enter these markets with a well-respected reputation of quality and efficiency.

Site Visit Offering

InterMedCorp Completes required site visits for Physician office that want to become part of the Network of available physicians.

We follow URAC, NCQA and Jacho guidelines in preparation of our onsite visit to new network providers. We can score your sites in accordance with your accreditation. This is a task that is commonly done in house but some of the larger carriers are finding the following benefits by outsourcing to IMC;

- Cost savings by having one fixed rate apply to all visits
- Volume discount savings
- Timeline requirements (turnaround in 21 days)
- HR savings by outsourcing
- Quality standards by one consistent vendor

**We have a proven process, let us show you
how we can satisfy your needs.**

Medical Record Review Offerings

1. **Simple Code Review** - Side by Side comparison of coding practice demonstrated compared to recommended usual and customary coding practices
2. **Brief Summary or narrative overview** - Complete review as appropriate for complex cases having moderate to extensive records, multiple conditions and/or providers.
3. **Discussion of pertinent issues** that would appear to be affecting the case - Discussions provide rationale and points of strength.
4. **Conclusion and recommendations** for continued investigation and follow-up - Recommendations provide guidance for effective and continued investigations.
5. **Standalone Chronology** extensive review of relevant facts

This service will help gauge quality standards, meet HEDIS requirements or investigate fraudulent billing by providers.
