

WE SEND ENCRYPTED ELECTRONIC TRANSACTIONS..

InterMedCorp uses a HIPAA compliant medical billing system. Safe and secure transport of your billing transactions is essential to avoid steep penalties. You may be surprised at how many of the most popular software programs are not compliant. It is also important to recognize that coding standards are constantly being updated, having a company like InterMedCorp review your code use and recommend potential updates can make the difference in compliancy with the added benefit of increased collection.

Are you collecting what you deserve?

Medical Billing Service

WE DO YOUR BILLING SO YOU CAN PRACTICE MEDICINE

BENEFITS

IMC is more than a claims processing center because we offer multiple Benefits and Services. Our billing system generates your claims daily, which are accurately coded and electronically submitted.

We are particularly effective at helping new clients with existing practices. Once you become an IMC client, our experienced team will expedite existing carrier paperwork.

Our Billers will aggressively follow-up on your old receivables. This means your practice can expect an initial increase to your cash flow as we **clean up and collect on your outstanding claims, literally “newly found” money.**

Using IMC as your medical billing service, you can expect consistently higher reimbursements in a timelier manner. We make your transition effortless.

By using IMC, you and your staff can free up your time. You and your personnel can concentrate on your medical practice, and use that time to see more patients. And there are the additional benefits of freeing up valuable office workspace.

SERVICES

Individual Billers

Each Client is assigned their own account biller. This gives your staff the security and comfort of dealing with the same representative who is uniquely familiar with your practice. And yes, each account representative has a backup.

No Recorded Voice prompts

All calls are answered personally. We never use electronic voice prompts during regular business hours. When a patient calls they speak directly with an account representative. Questions are answered courteously, and all efforts are made to expedite a settlement. Patient privacy and support are not compromised.

24 Hour Claim Processing

When claims are received in our office, they are entered within 24 hours of receipt. Whether you use paper to submit your receivables our goal is fast data entry and bill submissions.

Electronic Claims Submissions

IMC daily submits your claims electronically to Medicare, Medicaid, BCBS and all commercial carriers. Once we receive your data, your account biller checks for errors, makes corrections if necessary, and submits the claims.

Claims Follow-up

We aggressively follow-up on all claims. In addition to your individual account biller that deals with carriers and patients, IMC follows-up and assists in calling patients to deal with outstanding balances. We know that we don't get paid unless you get paid.

COST

Finally, the average medical billing fee is 8.5% nationwide. Our fee is well below the national average.

Our goal is simply to provide the highest return on your claims, without sacrificing service or patient support, at a competitive price.

OUR SERVICES INCLUDE;
